1. Пояснительная записка

1.1. Дополнительная общеобразовательная программа «Общий курс английского языка» (“General English”), предполагает одновременное развитие всех языковых навыков: устной речи, свободного восприятия на слух разговорного английского языка, постановку правильного произношения, овладение базовой фонетикой, грамматикой и лексикой современного разговорного английского языка и является курсом, на 80% разработанным на основе существующих типовых программ обучения современному разговорному английскому языку и позволяющим гармонично сочетать в себе элементы теоретического знания и практические навыки, снимающие так называемый «языковой барьер» и способствующие более качественной социализации обучающихся в иноязычной языковой среде.

1.2. Предназначена для взрослой возрастной аудитории и рекомендуется лицам, как не изучавшим ранее английский язык, так и тем, кто стремится к усовершенствованию имеющихся навыков и кому необходим языковой практикум для повседневного общения и путешествий.

1.3. Дополнительная общеобразовательная программа включает в себя учебно - тематический план курса, состоящего из 6-ти различных уровней сложности, разделенных на основе общепринятой международной классификации уровней английского языка: Beginner, Elementary, Pre-Intermediate, Intermediate, Upper-Intermediate, Advanced, рабочую программу, цели и задачи, на достижение которых направлено обучение по общеобразовательной программе, планируемые результаты освоения программы, основные принципы построения курса, методы оценки преподавателем полученных обучающимися знаний и навыков, данные о форме обучения, сроках обучения, категории обучающихся, данные, касающиеся организации процесса обучения, данные об использованных методиках обучения, данные об используемой литературе при подготовке рабочей программы, включая общедоступные Интернет-сайты, данные о режиме, адресе, графике работы, контактный телефон и адрес электронной почты для письменных сообщений.

Уровень обучения по предложенной программе подбирается по результатам тестирования.

1.4. Дополнительная общеобразовательная программа «Общий курс английского языка» направлена на решение следующих основных задач:

- Дать обучающимся знания об особенностях фонетических, грамматических и лексических норм современного разговорного английского языка;
- Улучшить произношение;
- Выработать у обучающихся уверенные коммуникативные навыки и научить применять их в практике «живого» речевого общения, помогающие преодолеть так называемый «языковой барьер»;
- Повысить общий уровень владения современным разговорным английским языком.

1.5. После успешного завершения курса общеобразовательной программы, обучающиеся, в соответствии с полученным уровнем знаний, смогут:

- уверенно применять знания современного разговорного английского языка для формального и личного общения с зарубежными друзьями и коллегами, поддерживать беседы на разноплановые повседневные бытовые, личные и актуальные социальные темы;
- уверенно выражать свое мнение, развернуто высказывая согласие или несогласие с чем-либо;
- использовать в собственной разговорной речи предложения разной структуры;
- принимать активное участие в обсуждениях, дебатах и дискуссиях на различные темы.

1.6. Основные принципы построения курса.

Подбор фонетических, грамматических и лексических тем курса, их последовательность осуществляется с учетом таких важнейших принципов как: системность, комплексность и индивидуальный подход к потребностям каждого обучающегося.

1.7. Практические задания и методы развития требуемых языковых навыков в процессе обучения включают в себя следующие основные компоненты: наглядно-демонстрационные (изучение фонетических, грамматических и лексических конструкций), словесные (изучение новых слов и фраз на тему), практические (участие в дискуссии в группе, выполнение заданий на аудирование и говорение, разговорная практика).

В процентном соотношении, до 90% времени на каждом занятии отводится на практические занятия и 10% на получение теоретических знаний.

Типовое распределение учебного времени¹:

Таблица 1

1 - При составлении индивидуального учебного плана по требованию обучающегося допускается коррекция приведенного распределения учебного времени с целью усиленного развития нужного языкового навыка (например, знания фонетических и/или грамматических норм и др.) с учетом цели изучения иностранного языка.

2 - Чтение - индивидуальная работа обучающегося с контролем.
